SAFETY & HEALTH TRAINING

JUN 2021 - MAY 2022
Register Today: 866.906.9190 | uta.edu/ded/osha | osha@uta.edu

IMPROVE YOUR SAFETY KNOWLEDGE...

OSHA #3115 Fall Protection
OSHA #3015 Excavation, Trenching, and Soil Mechanics
OSHA #3095 Electrical Standards
OSHA #2264 Permit-Required Confined Space Entry
OSHA #2225 Respiratory Protection

RISK MANAGEMENT
Control risk and prevent injuries and catastrophic events by mastering hazard identification, risk assessment, and risk-informed decision making

UNIVERSITY OF TEXAS ARLINGTON
Excellence and achievement abound at The University of Texas at Arlington. Our highly ranked academic programs attract the best and brightest scholars from around the world, and our faculty and participants consistently receive national and international recognition for their accomplishments. The breadth and depth of these accolades accentuate UTA’s status as a preeminent place for intellectual pursuits and a driver of positive change. Our training is highly regarded by employers and industries.

The OSHA Education Center at UTA

As a leading OSHA Education Center, UTA is expanding its delivery of safety and health courses, offering new classroom locations, live instructor-led webcasts of selected courses, online training opportunities, and more on-site contract training. Our courses are taught by industry experts with real-world insight and extensive technical and OSHA knowledge.

We will customize our training for your organization. No matter the delivery method you choose, course attendees can earn continuing education units (CEUs) and apply them to our professional certificates.

Attend Courses at Multiple Locations
Our numerous training sites throughout Region VI offer you flexible and convenient access to our knowledgeable and experienced instructors and quality training. Contract classes are also available.

SERVING REGION VI
Arkansas | Louisiana | New Mexico
Oklahoma | Texas
NEW! VIRTUAL INSTRUCTOR-LED LIVE WEBCASTS

Our courses are now available as virtual instructor-led live webcasts. Check out the schedule on pages 44-45 or our website uta.edu/ded/osha

OSHA training courses are now also available as virtual instructor-led live webcasts. Participants enrolling in open enrollment OSHA courses must live or work within OSHA Region VI (Arkansas, Louisiana, Oklahoma, New Mexico, and Texas). UTA Trainers are permitted to register and take the OSHA Trainer Update Classes offered as live webcasts regardless of location.

TECHNICAL REQUIREMENTS:
This training will be conducted via Microsoft Teams. No software download is required, however participants are required to have the following:

- A stable internet connection - broadband wired or wireless (3G or 4G/LTE)
- Speakers and a microphone - built-in or USB plug-in or wireless Bluetooth (note: you can use the microphone and receiver built into your smart phone, however, earphones with a microphone are recommended)
- A webcam or HD webcam

Online registration is not permitted for OSHA-numbered webcasts. Please call 866-906-9190 or email cedquestions@uta.edu to register.

Guía de Planificación de la Certificación ........................................49
BECOME AN INDUSTRY-RECOGNIZED CERTIFIED PROFESSIONAL

Who should earn a professional certification from the University of Texas at Arlington?

- Safety, health, and environmental professionals
- Safety coordinators & additional duty safety persons
- Human resources professionals
- Safety and health training facilitators
- Public works professionals
- Risk management and risk assessment professionals
- Plant managers, supervisors, team leaders, & crew chiefs

Why should you earn a professional certification?

- Demonstrates professionalism
- Creates a safer work environment for you and your coworkers
- Distinguishes your career
- Validates your knowledge
- Proves your dedication to the profession
- Improves career advancement opportunities
- Provides for greater earning potential
- Qualifies for academic credit

WANT TO BE PRESENTED?

If you wish to receive your certification in your last class, submit your application two to three weeks prior to your last class.

Application Timeframe

Download a certificate request form at uta.edu/ded/osha

A minimum of two (2) classes being applied toward your SSH, CSHO, SHEP, or MC must be taken with UT Arlington.
## SPECIALIST IN SAFETY & HEALTH

The Specialist in Safety and Health (SSH) is designed to give participants the foundational knowledge they need in the safety field, with an emphasis on their choice of industry.

### GENERAL INDUSTRY

**REQUIRED (1)**
- OSHA #511 OSHA Standards for General Industry

**ELECTIVES (3)**
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery & Machine Guarding Standards
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

### CONSTRUCTION INDUSTRY

**REQUIRED (1)**
- OSHA #510 OSHA Standards for Construction

**ELECTIVES (3)**
- OSHA #2015 Hazardous Materials
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

### PORT SAFETY

**REQUIRED (2)**
- OSHA #2055 Cranes in Construction
- OSHA #5410 OSHA Standards for the Maritime Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

### OIL & GAS

**REQUIRED (2)**
- OSHA #5810 Hazard Recognition for Oil and Gas
- OG 202 Hydrogen Sulfide (H₂S)

**ELECTIVES (2)**
- Any two (2) OSHA courses

### FIRE SAFETY

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry or OSHA #510 OSHA Standards for Construction
- LS 101 Life Safety Code Concept or FS 1500 Fire Safety and Health Management

**ELECTIVES (2)**
- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3115 Fall Protection
- OSHA #5600 Disaster Site Worker Trainer Course
- MM 722 Chemistry for the Environmental Professional
- FS 201/202 Applied Fire Safety, Protection, and Analysis
- FS 913 Communication Global Harmonization (GHS)
- SH 7201 Bloodborne Pathogen Trainer Course

### DISASTER RESPONSE

**REQUIRED (3)**
- OSHA #5600 Disaster Site Worker Trainer Course or OSHA #511 OSHA Standards for General Industry
- DR 560 ICS/NIMS for Disaster Response or DR 660 Incident Management Training
- HM 241 HAZWOPER General Site Worker 40-hour
- OSHA #511 OSHA Standards for General Industry or OSHA #510 OSHA Standards for Construction

**ELECTIVES (2)**
- Any two (2) OSHA courses

### HEALTHCARE

**REQUIRED (2)**
- SH 202 Trainer Course for Medic First Aid and CPR or SH 200O SH 201O OSHA/Joint Commission Healthcare Safety Overview and Trainer Course for Healthcare Employee Safety and Health
- OSHA #511 OSHA Standards for General Industry

**ELECTIVES (2)**
- Any two (2) OSHA courses

### RISK MANAGEMENT

**REQUIRED (2)**
- OSHA #511 OSHA Standards for General Industry or OSHA #510 OSHA Standards for Construction
- RM 101 Risk Management Principles

**ELECTIVES (2)**
- RM 201 Assessment Techniques
- RM 202 Performance Measurement and Analysis
- RM 203 Risk-Informed Decision Making

---

1. Completion of OSHA #501 or #503 meets requirements.
2. Completion of OSHA #500 or #502 meets requirements.
3. Excluding Outreach Trainer courses and OSHA short courses.
CERTIFIED SAFETY & HEALTH OFFICIAL

Offered in two major industry tracks, the CSHO provides a solid and broad-based safety and health education in a curricula of OSHA Training Institute courses.

**GENERAL INDUSTRY**

**REQUIRED (7)**

- OSHA #501 Trainer Course in OSHA Standards for General Industry
- OSHA #511 OSHA Standards for General Industry
- OSHA #510 OSHA Standards for Construction
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3095 Electrical Standards

**ELECTIVES (2)**

- OSHA #2015 Hazardous Materials
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #3085 Principles for Scaffolding
- OSHA #3115 Fall Protection
- OSHA #5410 OSHA Standards for the Maritime Industry
- OSHA #5810 Hazard Recognition for Oil and Gas

**CONSTRUCTION INDUSTRY**

**REQUIRED (7)**

- OSHA #500 Trainer Course in OSHA Standards for Construction
- OSHA #510 OSHA Standards for Construction
- OSHA #511 OSHA Standards for General Industry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection

**ELECTIVES (2)**

- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection
- OSHA #5810 Hazard Recognition for Oil and Gas

**SAFETY AND HEALTH ELECTIVES (4)**

- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2015 Hazardous Materials
- OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #2055 Cranes in Construction
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry
- OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #3085 Principles for Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #3115 Fall Protection
- OSHA #5810 Hazard Recognition for Oil and Gas
- SH 810 Written Programs for S&H Management

**ENVIRONMENTAL ELECTIVES (1)**

- AIR 201 Fundamentals of the Clean Air Act
- ETI 501 EPA Outreach Trainer Course
- MGE 801 Environmental Management Systems
- MGE 810 Environmental Audits
- MGE 811 Environmental Law
- MGE 817 Pollution Prevention and Lean Principles
- WTR 301 Water and Wastewater Regulations
- WST 401 Resource Conservation and Recovery Act

Note: Two (2) OSHA short courses may be counted as one (1) elective toward your CSHO.

---

1 Completion of OSHA #501 or #503 meets requirements.
2 Completion of OSHA #500 or #502 meets requirements.
3 Not required with your CSHO.
SAFETY & HEALTH FUNDAMENTALS

Electives must have a minimum of 29 contact hours.

GENERAL INDUSTRY

REQUIRED (3)
- OSHA #511 OSHA Standards for General Industry
- OSHA #7500 Intro to Safety and Health Management
- OSHA #7505 Intro to Incident (Accident) Investigation

ELECTIVES (4)
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #3095 Electrical Standards
- OSHA #7000 Training Guidelines for Safe Patient Handling
- OSHA #7005 Public Warehousing and Storage
- OSHA #7100 Intro to Machinery and Machine Safeguarding or OSHA #2045 Machinery and Machine Guarding Standards
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7200 Bloodborne Pathogen Exposure
- OSHA #7205 Control for Healthcare Facilities
- OSHA #7208 Health Hazard Awareness
- OSHA #7210 Pandemic Illness Preparedness
- OSHA #7215 Silica in Construction/Maritime/General Industry or OSHA #7300 Understanding OSHA's Permit-Required Confined Space Standard
- OSHA #7305 Occupational Noise Exposure Standards
- OSHA #7400 Fall Hazard Awareness for the Construction Industry or OSHA #3115 Fall Protection
- OSHA #7410 Managing Excavation Hazards or OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #7845 Recordkeeping Rule Seminar

CONSTRUCTION INDUSTRY

REQUIRED (3)
- OSHA #510 OSHA Standards for Construction
- OSHA #7500 Intro to Safety and Health Management
- OSHA #7505 Intro to Incident (Accident) Investigation

ELECTIVES (4)
- OSHA #521 OSHA Guide to Industrial Hygiene
- OSHA #2225 Respiratory Protection
- OSHA #2255 Principles of Ergonomics
- OSHA #2264 Permit-Required Confined Space Entry or OSHA #3085 Principles of Scaffolding
- OSHA #3095 Electrical Standards
- OSHA #7105 Evacuation and Emergency Planning
- OSHA #7115 Lockout/Tagout
- OSHA #7200 Bloodborne Pathogen Exposure
- OSHA #7205 Control for Healthcare Facilities
- OSHA #7208 Health Hazard Awareness
- OSHA #7210 Pandemic Illness Preparedness
- OSHA #7215 Silica in Construction/Maritime/General Industry or OSHA #7300 Understanding OSHA's Permit-Required Confined Space Standard
- OSHA #7305 Occupational Noise Exposure Standards
- OSHA #7400 Fall Hazard Awareness for the Construction Industry or OSHA #3115 Fall Protection
- OSHA #7410 Managing Excavation Hazards or OSHA #3015 Excavation, Trenching, and Soil Mechanics
- OSHA #7845 Recordkeeping Rule Seminar

ENVIRONMENTAL

REQUIRED (2)
- MS 901 Management System Design for EHS

ELECTIVES (3)
- MS 901 Management System Design for EHS
- Environmental Regulatory Professional (ERP) Certification or Environmental Science Professional (ESP) Certification or Environmental Management Professional (EMP) Certification

ENGLISH

REQUIRED (2)
- MS 901 Management System Design for EHS

ELECTIVES (3)
- Three (3) additional environmental courses

Note: Due to course content, we recommend attending your MC electives prior to taking the MS 901.
OSHA #510
OSHA Standards for the Construction Industry

30 Hours | $595  
Contract | $8,000

This course covers the OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, with special emphasis on the most hazardous areas in construction. Upon course completion, participants will be able to define construction terms found in the OSHA Construction Standards; identify hazards in the construction industry; locate and determine the appropriate OSHA Construction Standards, policies, and procedures; and describe the use of the OSHA Construction Standards and Regulations to supplement an ongoing workplace safety and health program.

This course satisfies the training prerequisite for the Authorized Trainer Program designations in Construction, Personal Protective Equipment, Recordkeeping, and Hazardous Communication/GHS.

OSHA #500
Trainer Course in OSHA Standards for Construction

30 Hours | $695  Contract | $9,000
This course prepares the participants to become a trainer in the OSHA Outreach Training Program, conduct both the 10- and 30-hour Construction Outreach classes and issue OSHA Outreach Cards to participants after verifying course completion. Using the OSHA Construction Standards as a guide, the course emphasizes those topics required in the 10- and 30-hour programs, as well as those which are most hazardous. Participants receive training on effective instructional approaches and the use of visual aids and handouts. Participants must prepare a presentation on an assigned OSHA Construction Outreach Training Program topic and pass a written exam.

Prerequisites: Participants must have successfully completed the OSHA #510 OSHA Standards for Construction within the past seven (7) years and have five (5) years of safety and health work experience in the construction industry.

Refresher Training: Authorized Construction Industry Outreach Training Program trainers are required to attend the OSHA #502 Update for Construction Industry Outreach Trainers at least once every four (4) years to maintain their trainer status.

FLG 521
QUALIFIED FLAGGER TRAINING

4 Hours | $2,400
This course is intended for individuals who will be performing or engaging in flagging duties on construction/maintenance projects. The course will provide a better understanding of the importance and duties involved with flagging on a project. Course content includes: student participation using hands-on procedures for the flagger; overview of the flagger’s job; proper clothing – nighttime vs. daytime operations; tools to be used & proper use of tools (STOP, PROCEED & SLOW); flagger stations & situations; single, double flaggers, and pilot vehicle operations; working with a red flag & flashlight traffic wand; flagging at intersections; and proper flagger conduct. Upon successful course completion, students will receive a Qualified Flagger wallet card valid for a period of 3 years.

FLG 522
QUALIFIED FLAGGER TRAINING AND TRAINER

8 Hours | $3,300
This course is designed to prepare contractor representatives to present the 4-hour Flagger Training course to employees wishing to become qualified flaggers. In addition to basic training in fundamental concepts of work zone traffic control and flagging, adult training techniques will be presented, discussed, and demonstrated. Individuals interested in receiving training or training others as an escort flagger in accordance with Texas law and Chapter 22 of the Basic Peace Officer Course can take this class to meet the new regulatory obligations. Upon successful course completion, students will receive a Certified Instructor for Qualified Flaggers certificate, which will be valid for a three-year period. This certificate permits the student to train qualified flaggers in accordance with the TxDOT requirements.
OSHA Standards for General Industry

30 Hours | $595  Contract | $8,000

This course covers the OSHA Standards, policies, and procedures in general industry. Topics include scope and application of the OSHA General Industry Standards and general industry principles, with special emphasis on the most hazardous areas in general industry. Upon course completion, participants will be able to define general industry terms found in the OSHA General Industry Standards; identify hazards in general industry; locate and determine appropriate OSHA General Industry Standards, policies, and procedures; and describe the use of OSHA General Industry Standards and regulations to supplement an ongoing workplace safety and health program.

This course satisfies the training prerequisite for the Authorized Trainer Program designations in General Industry, Personal Protective Equipment, Recordkeeping, Hazardous Communication/GHS, and Material Handling.

OSHA #6005
COLLATERAL DUTY COURSE FOR OTHER FEDERAL AGENCIES

30 Hours | $595  Contract | $8,000

Gain an overview of the OSHA Act, Executive Order 12196, 29 CFR 1960, and 29 CFR 1910, enabling you to recognize basic safety and health hazards in the workplace. Effectively assist agency safety and health officers in their inspection and abatement efforts. Learn how the OSHA numbering system works. Identify the applicable standard for about 40 hazardous conditions.
OSHA #501
Trainer Course in OSHA Standards for General Industry

30 Hours | $695  
Contract | $9,000

This course prepares the participant to become a trainer in the OSHA Outreach Training Program, to conduct both the 10- and 30-hour General Industry Outreach classes and issue OSHA Outreach Cards to participants after verifying course completion. Using the OSHA General Industry Standards as a guide, this course emphasizes those topics required in the 10- and 30-hour programs, as well as those which are most hazardous. Participants receive training on effective instructional approaches and the use of visual aids and handouts. Participants must prepare a presentation on an assigned OSHA General Industry Outreach Training Program topic and pass a written exam at the end of the course.

Prerequisites: Participants must have successfully completed the OSHA #511 OSHA Standards for General Industry within the past seven (7) years and have five (5) years of safety and health work experience in general industry.

Refresher Training: Authorized General Industry Outreach Training Program trainers are required to attend the OSHA #503 Update for General Industry Outreach Trainers at least once every four (4) years to maintain their trainer status.

Refresher Training:

The OSHA #500, #501, #5400, and #5600 courses allow participants to become a Trainer in the OSHA Outreach Training Program and to conduct OSHA Outreach classes and issue cards to participants. Authorized Outreach Trainers deliver 10- and 30-hour outreach classes to workers in construction, general industry, maritime, and 7.5- and 15-hour classes for disaster site workers.

Turn the page to learn more about the Outreach Training Program.
OSHA #502
Update for Construction Industry Outreach Trainers

18.5 Hours | $495  Contract | $7,000

This course is for authorized OSHA Outreach Training Program trainers who have completed the OSHA #500 Trainer Course in OSHA Standards for the Construction Industry. The course provides an update on OSHA Construction Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to identify, define, and explain construction industry hazards and acceptable corrective measures as they teach the 10- and 30-hour Construction Outreach Training Program classes.

Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

The United States Department of Labor OSHA Outreach Training Program provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces. The program also provides information regarding workers’ rights, employer responsibilities, and how to file a complaint. This is a voluntary program and does not meet training requirements for any OSHA standards.
OSHA #503
Update for General Industry Outreach Trainers

18.5 Hours | $495 Contract | $7,000

This course is for authorized OSHA Outreach Training Program trainers who have completed course #501 Trainer Course in Occupational Safety and Health Standards for General Industry. The course provides an update on OSHA General Industry Standards, policies, and regulations. Upon course completion, participants will be able to demonstrate professional development by applying effective adult learning principles and interactive training techniques to clearly identify, define, and explain general industry hazards and acceptable corrective measures as they teach the 10- and 30-hour General Industry Outreach Training Program classes.

Prerequisites: OSHA #501 Trainer Course in Standards for General Industry. Authorized General Industry Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

OUTREACH TRAINER UPDATE COURSES

- Web-based Application for Reporting Training and Requesting Outreach Cards
- User-Friendly, Menu-Driven
- Simplified Submission and Recordkeeping
- Computer, Tablet, or Smartphone Access
- Improved Processing Speed
- Training Resources
BECOME AN AUTHORIZED UTA SAFETY & HEALTH TRAINER

Modeled after the OSHA Outreach Program, the goal of the UT Arlington Division for Enterprise Development Authorized Safety & Health Trainer Program is to provide training for workers on workplace hazards and safe work practices. Individuals designated as UTA Authorized Safety and Health trainers address the recognition, avoidance, abatement, and prevention of safety and health hazards associated with specific issues in the workplace. Trainers can use the Outreach Portal to request completion cards for their participants.

BECOME A UTA TRAINER

- Take prerequisite course for desired designation
- Complete the ATP 191 Safety and Health Authorized Trainer

BE A TRAINER

- Instruct awareness-level classes following ATP guidelines
- Submit course reports via Outreach Portal to receive participant cards

STAY A TRAINER

- Update authorization every three (3) years through online modules

OVER 1,000 UTA AUTHORIZED SAFETY & HEALTH TRAINERS
**ATP 191**  
**Safety and Health Authorized Trainer**  
**32 Hours | $695**  
This course incorporates an overview of instructional strategies, design, and practices for adult learning settings. It explores situational and cultural factors that influence adult learning and reviews the requirements of ANSI Z490.1, Criteria for Accepted Practices in Safety, Health, and Environmental Training on how to create, maintain, and evaluate effective EH&S training. Various instructional approaches, classroom management techniques, and the effective use of visual aids and handouts will be covered. Participants will develop informational presentations based upon the technical instruction and individual research requirements. Instruction and hands-on exercises on specific safety and health topics will be provided. The course includes “teach back” sessions to apply the adult learning techniques and effective safety and health training knowledge and skills. Participants will work in small groups, or independently, to develop training materials on one of the listed topic areas. Successful completion of the course and written and performance examinations will allow the participant to be recognized as an Authorized Trainer.

**Refresher Training:** Authorized Trainers are required to attend the ATP 190O Online Update for Safety and Health Authorized Trainers at least once every three (3) years to maintain their trainer status.

**Prerequisites:** Participants must have three (3) years of safety and health work experience in any industry, or be a current authorized Outreach trainer.

---

**ATP 190O**  
**Online Update for Safety & Health Authorized Trainers**  
**$145 | 8 Hours**  
This course will update you on the changes to the UTA Authorized Trainer Program, the reasons for the changes, review the training principles for adult education, and review teaching and training techniques using ANSI/ASSE Z490.1, Criteria for Accepted Practices in Safety, Health and Environmental Training and the OSHA 3824, Resource for Development and Delivery of Training. Upon completion, trainers will be able to download a certificate of completion.

The courses listed on this page feature no U.S. Department of Labor or OSHA affiliation, approval, or endorsement.
OSHA #5410
Occupational Safety and Health Standards for the Maritime Industry

35 Hours | $695  Contract | $9,000
This course covers the OSHA policies, procedures, and standards for the maritime industry, specifically shipyard employment, marine terminals, and longshoring. Special emphasis is on those areas most hazardous in the maritime industry using the OSHA Maritime Standards as a guide.

Apr 25 - 29, 2022  VILT  Webcast

OSHA #5400
Trainer Course in OSHA Standards for the Maritime Industry

30 Hours | $695  Contract | $9,000
This course prepares the participant to become a trainer in the Outreach Training Program to conduct 10- and 30-hour maritime classes in shipyard employment, marine terminals, and longshoring. It authorizes them to issue OSHA Outreach Cards to participants after verifying course completion. Participants will receive training on effective instructional approaches and use of visual aids and handouts. Participants must successfully prepare a presentation on an assigned OSHA maritime industry Outreach Training Program topic and successfully pass a written exam.

Prerequisites: Participants must successfully complete the OSHA #5410 Occupational Safety and Health Standards for the Maritime Industry, have three (3) years of maritime industry experience, and possess at least two (2) years of occupational safety and health experience with a broad focus in any industry.

Refresher Training: Authorized Maritime Industry Outreach Training Program trainers are required to attend OSHA #5402 Maritime Industry Trainer Update Course at least once every four (4) years to maintain their trainer status.

Feb 22 - 25, 2022  VILT  Webcast

OSHA #5600
Disaster Site Worker Trainer Course

26 Hours | $695  Contract | $9,000
Successful completion of this course authorizes participants to become OSHA Outreach trainers in the Disaster Site Worker Outreach Training Program. Course topics include the National Response Framework; the ICS; disaster work zone safety; respiratory protection; communication issues; and application of the elements of successful adult training.

Prerequisites: OSHA #500 Trainer Course in OSHA Standards for Construction or OSHA #501 Trainer Course in OSHA Standards for General Industry, three (3) years of safety training experience, and completion of the 40-hour HAZWOPER training.

Refresher Training: Authorized Disaster site worker Outreach Training Program trainers are required to attend the OSHA #5602 Update for Disaster Site Worker Trainer course at least once every four (4) years to maintain their Outreach Training Program trainer authorization.

May 24 - 27, 2022  VILT  Webcast

OSHA #5602
Update for Disaster Site Worker Trainer Course

7.5 Hours | $395  Contract | $5,000
This course updates the authorized Disaster Site Worker trainer with new technical and regulatory information related to disaster response and the role of OSHA in coordinating occupational safety and health efforts in the National Response Framework. Participants will have the opportunity to share “lessons learned” from teaching the Disaster Site Worker Course.

Prerequisites: OSHA #5600 Disaster Site Worker Trainer Course. Authorized Construction Outreach Training Program trainers are required to attend this course once every four (4) years to maintain their trainer status.

Apr 11, 2022  VILT  Webcast

The U.S. had 16 natural disasters in 2020 including wildfires, hurricanes, tornadoes, and drought that each caused at least $1 billion in damage, tying the record set in both 2011 and 2017. The 2020 hurricane season surpassed 2005 with the most named storms on record – 30 and tying 1886 and 1985 for the most continental U.S. hurricane landfalls in a single season. Zeta was the record fifth named storm to hit Louisiana in a single season.
### OSHA #521
**OSHA Guide to Industrial Hygiene**

<table>
<thead>
<tr>
<th>Contract</th>
<th>$8,000</th>
</tr>
</thead>
</table>

This course covers industrial hygiene practices and related OSHA regulations and procedures. Course topics include recognition, evaluation, and control of chemical, physical, biological, and ergonomic hazards; Permissible Exposure Limits (PEL); OSHA health standards; respiratory protection; engineering controls; OSHA sampling protocols and strategies; and workplace health program elements. Workshops involve participants in health hazard recognition, OSHA health standards, and use of sampling equipment. Upon course completion, participants will be able to recognize basic industrial hygiene principles and practices, identify characteristics of common air contaminants, locate PELs, perform basic industrial hygiene calculations, and determine the methods for hazard control and abatement.

### OSHA #2015
**Hazardous Materials**

<table>
<thead>
<tr>
<th>Contract</th>
<th>$8,000</th>
</tr>
</thead>
</table>

This course covers OSHA General Industry Standards and other consensus and proprietary standards related to the use of hazardous materials. Course topics include flammable liquids, compressed gases, LP-gases, and cryogenic liquids. Participants will review related processes, such as spraying, dipping, and the use of electrical equipment in hazardous locations. Upon course completion, participants will be able to assess compliance with OSHA hazardous materials standards; determine hazardous (classified) locations; and conduct proper moving, storing, and handling of hazardous materials.

**26 Hours | $595**

**This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hazard Communication/Global Harmonization System (GHS).**

**1910.1200 Hazard Communication was again the 2nd most cited safety violation by OSHA in 2020.**
**OSHA #2045**  
**Machinery and Machine Guarding Standards**

**26 Hours | $595 | Contract | $8,000**

This course covers various types of common machinery, machinery safeguards, and related OSHA regulations and procedures. Participants will receive guidance on the hazards associated with various types of machinery and determining proper machine safeguards. Course topics include machinery processes, mechanical motions, points of operation, control of hazardous energy sources (lockout/tagout), guarding of portable powered tools, control methods and hazard abatement, appropriate machine safeguards, and common OSHA machine guarding violations. Program highlights include the ability to recognize hazards, provide options for control, and hazard abatement through machine safeguarding and inspection workshops.

*This course satisfies the training prerequisite for the Authorized Trainer Program designations in Lockout Tagout and Machine Guarding.*

**OSHA #2225**  
**Respiratory Protection**

**26 Hours | $595 | Contract | $8,000**

This course covers the requirements for establishing, maintaining, and monitoring a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include workshops on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment. Upon course completion, participants will be able to identify and describe the elements of a respiratory protection program; properly select, use, and inspect respiratory protection and protection factors; and evaluate compliance with the OSHA standards.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Respiratory Protection.*

Machine Guarding was cited twice by OSHA in the 2020 Most Frequently Cited safety violations in 2020.
OSHA #2055
Cranes in Construction

22.5 Hours | $595
This course covers best practices in crane and derrick operation using as a guide the OSHA Cranes and Derricks in Construction Rule. Course topics include hazards associated with crane assembly and disassembly; types of cranes; lifting concepts; rigging and wire rope; signaling; employee qualifications and training; and maintenance, repair, and inspection requirements. Participants will participate in workshops to reinforce the concepts of safe crane operation.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Cranes & Rigging.

Principles of Ergonomics

19 Hours | $595
This course covers the use of ergonomic principles to recognize, evaluate, and control workplace conditions that cause or contribute to musculoskeletal and nerve disorders. Topics include work physiology; anthropometry; musculoskeletal disorders; use of video display terminals; and risk factors. Industrial case studies cover analysis and design of workstations and equipment workshops, along with coverage of current policies and guidelines.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Ergonomics.

OSHA #2264
Permit-Required Confined Space Entry

22.5 Hours | $595
This course covers safety and health hazards associated with permit-required confined space entry. Course topics include both the OSHA permit-required confined space standards for construction and general industry; identification of permit- and non-permit-required confined spaces; ventilation techniques; development and implementation of a confined space program; and training requirements. This course features workshops on permit entry classification, instrumentation, and program development.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Confined Space.

The Bureau of Labor Statistics reports that from 2011 to 2018, 1,030 workers died from occupational injuries involving a confined space. The annual figures range from a low of 88 to a high of 166.
OSHA #3015
Excavation, Trenching, and Soil Mechanics

22.5 Hours | $595 Contract | $7,000

This course covers the OSHA Excavation Standard and safety and health aspects related to excavation and trenching. Course topics include the relationship between practical soil mechanics and the stability of shored and unshored slopes and walls, introduction of various types of shoring, soil classification, and use of protective systems. Participants participate in workshops in the use of instruments such as penetrometers, Torvane shears, and engineering rods to demonstrate testing methods. Participants will be able to assess compliance with the Standard, use soil testing methods to classify soil types, determine protective systems for excavation operations, and understand the training requirements.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Excavation & Trenching.

OSHA #3095
Electrical Standards

26 Hours | $595 Contract | $8,000

This course covers the OSHA Electrical Standards and hazards associated with electrical installations and equipment. Course topics include single- and three-phase systems, cord- and plug-connected and fixed equipment, grounding, ground fault circuit interrupters (GFCI), and safety-related work practices. Emphasis is on electrical hazard recognition, OSHA Standards and policies, hazard recognition and abatement measures, and procedures. Applicable portions of the National Electrical Code (NEC) are also covered. Participants will participate in workshops on the safe and correct use of electrical testing equipment.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Electrical and Lockout/Tagout.

Electrical hazards are a potential source of injury to workers in a wide array of work environments. 80% of fatal injuries from direct exposure to electricity occurred while workers were engaged in constructing, repairing, or cleaning activities.
## OSHA #3115
### Fall Protection

**22.5 Hours | $595**  
**Contract | $7,000**

This course covers OSHA Fall Protection Standards for construction, as well as an overview of fall protection methods. Course topics include the components and limitations of fall arrest systems, and the OSHA Standards and policies regarding fall protection. Workshops provide participants the opportunity to demonstrate the proper inspection and use of fall protection equipment and fall arrest systems, training requirements, and the methods for developing a fall protection program.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.*

## OSHA #3085
### Principles for Scaffolding

**22.5 Hours | $595**  
**Contract | $7,000**

This course covers the requirements for the safe construction and use of scaffolding. Participants will participate in workshops to reinforce concepts of safe scaffolding. Upon course completion, participants will be able to identify the types of scaffolds and their components, determine safe assembly, use, and disassembly of scaffolding, and recognize common violations of OSHA Standards.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Scaffolding.*

## OSHA #5810
### Hazards Recognition and Standards for On-Shore Oil and Gas Exploration and Production

**30 Hours | $695**  
**Contract | $9,000**

This course instructs participants on how to protect themselves and others by developing the knowledge and skills to anticipate, recognize, evaluate, and control hazards common to the on-shore oil and gas exploration and production industry. Material presented applies to topics including but not limited to, construction, drilling, completion, well servicing, production, product gathering and processing, and product transmission sites.

*This course satisfies the training prerequisite for the Authorized Trainer Program designation in Oil & Gas.*

OSHA #7100  
**Introduction to Machinery and Machine Safeguarding**  
4 Hours | $145  
| Contract | $3,000  
This course covers the process to identify, select and properly safeguard machinery to protect employees and others in the work area and provide training in safe work practices. Participants will be able to explain the hazardous actions and motions of various types of machinery, identify methods of safeguarding, and match identified safeguards with the applicable OSHA Machinery and Machine Guarding Standards to reduce and eliminate the potential for accidents and injuries.  

Sep 10, 2021  
Arlington, TX

OSHA #7105  
**Evacuation and Emergency Planning**  
4 Hours | $145  
| Contract | $3,000  
This course covers the OSHA requirements for emergency action and fire protection plans. Workshops involve participants in the development of emergency action plans. Participants will be able to list the elements of an emergency action plan and emergency evacuation floor plans, recognize violations of OSHA exit route requirements, and develop and implement workplace emergency action and fire protection plans.

OSHA #7300  
**Understanding OSHA’s Permit-Required Confined Space Standard**  
7.5 Hours | $195  
| Contract | $3,000  
This course covers the requirements of the OSHA Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements; it does not feature workshops (instrumentation, control methods and testing) which are included in the OSHA #2264 Permit-Required Confined Space Entry. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. Upon course completion students will have a basic understanding of confined space hazards, evaluating and abatement of the hazards, and determining when a confined space shall be classified as a permit-required confined space.

MEDIC First Aid® is a leading provider of corporate CPR, AED, and first aid training programs. For 35 years, MEDIC First Aid Training Programs have used a scenario-based, video-directed, instructional approach that combines seeing, hearing, speaking, feeling, and doing to engage participants, embrace different learning styles, and make teaching and learning easier and more enjoyable. All backed by outstanding customer service and technical support. Learn more at hsi.com/medicfirstaid.

**SH 202**

*Trainer Course for Medic First Aid and CPR*

| 16 Hours | $495 | Contract | $7,000 |

This course is designed to help participants build essential life-saving skills. Participants will be qualified to train others in Medic First Aid/CPR, use of Automated External Defibrillators (AEDs), disease prevention from Bloodborne Pathogens, and Infant and Child rescue skills and AED applications. Participants will apply these skills in optional scenario-based practices. Upon course completion, participants will be approved to instruct MEDIC First Aid training programs in BasicPlus, CarePlus, Bloodborne Pathogens, Emergency Oxygen, and Child/Infant Supplement. This training can be used for continuing education credits for nursing.

Jul 8 - 9, 2021  Houston, TX

**SH 201**

*Trainer Course for Healthcare Employee Safety & Health*

| 16 Hours | $395 | Contract | $5,000 |

This course is designed for healthcare professionals who want to plan and present safety and health content to their employees/colleagues. The program covers topics specific to making safety and health training engaging, relevant, and impactful for all healthcare workers. In addition to the content, the participants will receive a Trainer’s Tool Kit with a variety of resources and training materials.

Jul 6 - 7, 2021  Houston, TX

**SH 200O**

*OSHA/Joint Commission Healthcare Safety Overview & Crosswalk*

| 8 Hours | $150 |

This course will prepare participants to evaluate the readiness of a healthcare organization pursuing accreditation by the Joint Commission. Participants crosswalk the OSHA 29 CFR 1910 General Industry Standards and Joint Commission Accreditation Manual Chapters covering Environment of Care (EC), Emergency Management (EM), Life Safety (LS) and Infection Control (IC). In addition, if applicable, references will be made to provisions of the Centers for Medicare Services (CMS) conditions of Participation. Participants investigate the numerous agencies, funding sources, investors and interest groups that contribute to regulatory and compliance requirements. Case studies are used to highlight and direct participant activities and identify areas for further investigation. This course is available for 9.6 Contact Hours of Nursing Continuing Education.

**SH 201O**

*Trainer Course for Healthcare Employee Safety & Health*

This course is designed for healthcare professionals who plan to present safety and health content to their employees and colleagues. The program covers topics specific to making safety and health training engaging, relevant, and impactful for all healthcare workers. In addition to the content, the participants will receive a Trainer’s Tool Kit with a variety of resources and training materials.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Healthcare Employee Safety & Health.
Do you have several employees who need training or don't see a course offering that meets your schedule? Every course and professional certification offered in this catalog can be delivered straight to you, at your facility or virtually as an instructor-led live webcast, and on your schedule - eliminating employee travel expenses. Unless otherwise indicated, contract pricing throughout this publication reflects a class size of up to 20 participants and includes all instructor fees and course materials.

**AVERAGE OPEN ENROLLMENT COST:**

**OSHA #6015**
Occupational Safety and Health Course for Other Federal Agencies

**60 Hours | $21,000**
The course covers the recognition, evaluation, and control of safety and health hazards for federal agencies; including the OSH Act, Executive Order 12196, 29 CFR 1960 and 29 CFR 1910 General Industry standards. Students will learn to reference the General Industry standards and use of related consensus standards and best practices. At the successful completion of the course, the student will be familiar with OSHA General Industry standards and have the ability to identify safety and health hazards, apply common abatement practices to correct those hazards, and be familiar with multiple resources available to identify problems or problem areas.

**OSHA #7225**
Transitioning to Safer Chemicals

**15 Hours | $5,000**
This course covers a proactive approach to reducing the use of hazardous chemicals in the workplace by transitioning to safer alternatives. Course topics include identification, evaluation, assessment, and implementation of safer chemical alternatives. In particular, participants will use OSHA’s seven-step substitution planning process. The course features workshops and hands-on activities with the use of various online chemical databases and tools. Upon course completion participants will have the ability to recognize and evaluate hazardous chemicals in their workplace, assess safer alternatives, and implement those alternatives.

**SH 785**
Root Cause Analysis

**16 Hours | $7,000**
This workshop provides participants the basic skills necessary to conduct an effective accident investigation and determine the root causes of accidents. The course reviews basic accident investigation procedures and describes accident analysis techniques with emphasis on the use of Root Cause Analysis. Participants will use systems thinking and related tools and techniques to identify contributing and causal factors that underlie variations in performance associated with adverse events or close calls. The course integrates a number of different analysis methods using actual case studies to demonstrate their advantages, disadvantages, and applications. Participants will engage in a variety of instructional activities including lectures, group discussions, quizzes, and practical exercises to reinforce their understanding and use of Root Cause Analysis.

**CPT 101**
Fall Protection for the Competent Person

**24 Hours | $8,000**
This 3-day course is designed for personnel who may be designated as the Competent Person by their employer for typical construction-related activities involving working at height. It is also recommended for any construction, maintenance, or supervisory personnel who use fall prevention and/or protection equipment and systems or who will be responsible for safety at their job sites where fall hazards exist. Topics include: fall hazard recognition, evaluation, and control; construction exposures and applications; detailed review of fall protection regulations and requirements; hierarchy of fall protection systems; fall hazard evaluation; eliminating and controlling fall hazards; Aerial Lifts and ladders; developing and maintaining a managed fall protection program; conducting fall hazard surveys and inspections; fall prevention and protection equipment and system selection and use; and incident investigations. Training includes active participation with hands-on activities and demonstrations.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Fall Protection.

**Prerequisites:** OSHA #500 Trainer Course in OSHA Standards for Construction, OSHA #501 Trainer Course in OSHA Standards for General Industry, or ATP 191 Safety & Health Authorized Trainer. This course satisfies the requirements of OSHA, ANSI, and USACE 385-1-1.

**Refresher training:** Competent Persons are required to attend update training at least every two (2) years to stay current with fall protection and rescue educational industry requirements IAW ANSI Z359.2. The update course CPT 101O is now available online.

**SH 385**
EM 385-1-1 Construction Safety Standards

**40 Hours | $10,000**
This course is designed for contractors, military, and government employees who enforce, or must comply with, U.S. Army Corps of Engineers (USACE) safety and health requirements (EM 385-1-1, U.S. Army Corps of Engineers Safety & Health Requirements Manual) and OSHA 29 CFR 1926. Attendees will learn the unique procedures established by the USACE contracts and EM 385-1-1. Topics include recognition, avoidance, abatement, and prevention of safety and health hazards in construction. Specific topics cover preparation of site-specific accident prevention plan (APP), activity hazard analysis (AHA) development, site personnel training, incident response, and jobsite auditing. This training can be conducted with an OSHA 30-hour for Construction Industry.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in EM 385-1-1.

These 3-day courses are designed for personnel who may be designated as the Competent Person by their employer. They incorporate specific ANSI standards, US Army Corps of Engineer EM 385-1-1 requirements, and other consensus standards in addition to the OSHA requirements. They include active participation, with hands-on activities and demonstrations. These courses are also recommended for any construction, maintenance, or supervisory personnel with specific responsibilities in the covered activities.*

## DISASTER RESPONSE

* Available with OSHA 30-Hour for Construction Industry
Online safety and health courses are available to allow participants the opportunity to gain the training they need without impacting their day-to-day obligations.

Visit uta.edu/ded and click on Online Courses to learn more and view additional training available online.

**SH 105O**  
Job Hazard Analysis/Job Safety Analysis  
8 Hours | $75

This course provides participants with the knowledge and skills to conduct a thorough job hazard analysis (JHA). Participants will learn how to Identify hazards, what a job hazard analysis is, and how to conduct a step-by-step job hazard analysis. A job hazard analysis focuses on the relationship between the worker, the task, the tools, and the work environment to identify hazards before they occur. Participants will conduct an actual job hazard analysis to identify uncontrolled hazards and identify measures to eliminate or reduce those hazards.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Office Safety.

**SH 200O**  
OSHA/Joint Commission Healthcare Safety Overview & Crosswalk  
8 Hours | $150

This course will enable participants to evaluate the readiness of a healthcare organization pursuing accreditation by the Joint Commission. Participants will walk the OSHA 29 CFR 1910 General Industry Standards and Joint Commission Accreditation Manual Chapters covering Environment of Care (EC), Emergency Management (EM), Life Safety (LS) and Infection Control (IC). In addition, where applicable, references are made to provisions of the Centers for Medicare Services (CMS) conditions of Participation. We Investigate the numerous agencies, funding sources, investors and interest groups who contribute to regulatory and compliance requirements. Case studies are used to highlight and direct participant activities and identify areas for further investigation. This course is available for 9.6 Contact Hours of Nursing Continuing Education.

**SH 660O**  
Psychology of Accident Prevention  
8 Hours | $150

This training focuses on the principles and procedures which shape behavior and actions in the workplace. We focus on thoughts, attitudes, and behaviors that can influence safe behavior, drawing on extensive research to discuss the psychology of safety. Participants will also examine how to properly collect and analyze behavioral data, how to assess people, goal setting, and how to set smart goals. This training course is both a psychological study and helpful guide for achieving a safety culture.

**SH 201O**  
Trainer Course for Healthcare Employee Safety and Health  
16 Hours | $300

This course is designed for healthcare professionals who want to plan and present safety and health content to their employees and colleagues. The program covers topics specific to making safety and health training engaging, relevant, and impactful for all healthcare workers. In addition to the content, the participants will receive a Trainer's Tool Kit with a variety of resources and training materials.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Healthcare.

**SH 720O**  
Bloodborne Pathogens  
8 Hours | $150

Course addresses bloodborne pathogen identification, prevention measures, and step-by-step Bloodborne Pathogens Exposure Plan development. Featured topics include Introduction to Bloodborne Pathogens Standard, Exposure Control Plan, Exposure Determination, Methods of Control, Vaccinations and Evaluations, Training and Information, and Recordkeeping.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Bloodborne Pathogens.

**RM 740O**  
Critical Thinking and Analysis  
8 Hours | $150

This course provides attendees with skills to improve reasoning, root cause analysis, and their decision making skills. Numerous techniques for conceptualizing, analyzing, synthesizing, evaluating, and applying information are provided. Problem solving, decision making, and planning skills will be covered using interactive exercises. Learn methods to gather information by observation, interviewing, experience, reflection, reasoning, and communication.

**OG 201O**  
Critical Thinking and Analysis  
7.5 Hours | $175

This update course provides trainers with the skills and knowledge to educate employers and employees on the hazards associated with H2S (Hydrogen Sulfide). This course is required once every three years for all personnel teaching H2S classes in accordance with ANSI Z390.1. It provides timely information on hazards, policies, and regulations, with specific emphasis on the ANSI Z390.1 Standard.

OG 202
Hydrogen Sulfide (H₂S)

20 Hours | $595
Contract | $7,000

This course provides comprehensive training on the hazards associated with H₂S and their required protective measures. Participants will learn the properties and characteristics, respiratory protection requirements, gas detection, emergency response, and current H₂S technology. Hands-on exercises and equipment demonstrations are included. The requirements in the ANSI Z390.1, Accepted Practices for Hydrogen Sulfide Training, American Petroleum Institute (API) Recommended Practices, and Federal H₂S regulatory standards are also covered. This course is designed for personnel working in the petroleum industry, municipalities, utilities, research and development laboratories, transportation, paper/pulp/food processing, and chemical manufacturing companies. Upon course completion, participants will receive a course completion certificate and student card.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hydrogen Sulfide.

HAZARDOUS MATERIALS COURSES

**HM 241**
HAZWOPER General Site Worker 40-Hour

40 Hours | $595 | Contract | $10,000

This course is designed to fulfill the training requirements for workers involved in hazardous waste cleanup/remediation at industrial sites, RCRA or Superfund sites, voluntary cleanup operations, and operations involving hazardous wastes listed within Title 29 CFR Part 1910.120(e). Topics include scope, application, and definitions; safety and health programs; site characterization and analysis; site control; training; medical surveillance; engineering controls, work practices, and personal protective equipment; monitoring; site safety and health plans; drums and containers; decontamination; and on-site emergencies.

- Nov 1 - 5, 2021 VILT Webcast
- Jan 10 - 14, 2022 Houston (South), TX
- Mar 14 - 18, 2022 VILT Webcast
- May 9 - 13, 2022 Arlington, TX

**HM 242**
HAZWOPER Annual Refresher

8 Hours | $195 Online | $150 Contract | $3,000

This course is a refresher training course for individuals currently trained as HAZWOPER General Site Workers, First Responder Awareness Level or First Responder Operations Level. This training is required within one (1) year of the initial 40-hour course completion and yearly thereafter. Topics reviewed include hazardous materials and associated risks, HAZMAT recognition and identification, the role of the awareness-level individual, site security and control, and the Emergency Response Guidebook. The course satisfies the annual refresher training requirements of Title 29 CFR Part 1910.120(e&g).

**HM 241H**
Onsite HAZWOPER General Site Worker (Part II)

8 Hours | $295 Contract | $5,000

The onsite HAZWOPER course is designed to fulfill the site-specific and hands-on training requirements, as described in OSHA Interpretation Letter dated 11/22/94. This training includes the donning, doffing, and use of specific Personal Protective Equipment (PPE) required as well as site-specific hands-on task training tailored to the participant’s assigned duties.

- Jan 14, 2022 Houston (South), TX
- Mar 18, 2022 VILT Webcast
- May 13, 2022 Arlington, TX

**HM 241O**
Online HAZWOPER General Site Worker (Part I)

Online | $295

This online HAZWOPER course is designed to fulfill the basic training requirements for hazardous waste cleanup workers (Title 29 Code of Federal Regulations 1910.120(e)), and workers involved in emergency response operations or storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste. Topics include safety and health programs, site characterization and analysis, site control, training, medical surveillance, engineering controls, work practices, and PPE, monitoring; site safety and health plans; drums and containers; decontamination; and on-site emergencies. Participants must have additional training to complement this computer-based training. Training includes donning, doffing, and use of specific PPE, as well as site-specific hands-on task training.

ONLINE TRAINING AT YOUR OWN PACE

HM 241O and HM 242O are available online.

HAZARDOUS MATERIALS COURSES

MS 901
Management System Design for EHS

92 Hours | $2,895  Contract | $27,000

This management system course provides participants the opportunity to design the core elements of a management system for environmental, risk, safety, and health programs. The goal of this course is to assist participants in the design and development of an effective management system through classroom instruction, case studies, and participant exercise activities. Participants must be available to attend all three sessions.

Note: Due to course content, we recommend attending your MC electives prior to taking the MS 901.

Safety and Health Management Systems

32 Hours | $795  Contract | $10,000

Through lecture, intense participant involvement, and demonstrations of learning, participants will be provided the opportunity to differentiate various features of consensus standards and international standards for Safety and Health Management Systems (SHMS) such as the ANSI Z10 and ISO 45001. Participants will analyze the benefits of implementing a Safety and Health Management System and the learn how to implement a SHMS in a variety of industries such as manufacturing, construction, healthcare, and retail.

Jan 25 - 28, 2022  VILT  Webcast

SH 801
Enhancing Safety Performance with Behavioral Safety: Current Trends in BBS

20 Hours | $895  Contract | $11,000

This course is designed to provide participants with a thorough understanding of Behavior-Based Safety and begins with the evolution of BBS, including the underlying principles, common myths and half-truths. Emphasis is given to lessons learned from experience and research. Long-term goals for BBS are identified, along with proven steps organizations can take that lead to safety excellence. Participants will learn how to develop observation and feedback skills, how to use behavioral data to improve performance, and strategies to motivate employee safety performance.

Jul 13 - 15, 2021  VILT  Webcast
Mar 29 - 31, 2022  VILT  Webcast

SH 810
Written Programs for Safety & Health Management

40 Hours | $995  Contract | $11,000

This course addresses the eight core elements of an effective safety and health system and those central issues that are critical to each element's development, implementation, and proper management through the use of written material. Using a hands-on approach, participants will have the opportunity to develop policies, procedures, and checklists that are required to effectively manage a safety and health management system. It includes a course completion certificate for the OSHA #7500 Introduction to Safety & Health Management.

Jun 21 - 25, 2021  Arlington, TX

SH 900
Leading Measures for Improving Safety

24 Hours | $895  Contract | $11,000

This advanced safety and health course is designed to provide participants with the skill and knowledge to identify key steps in the performance measurement process and to develop implementation strategies for an organization. We will illustrate corporate success measures, reward and recognition programs, and identify potential pitfalls in performance measurement systems. Use of case studies, job safety analyses, infractions records, and near-miss (near-hit) reports will be used to demonstrate the practical application of the leading measure approach to improving performance.

Jul 5 - 7, 2022  VILT  Webcast

SH 910
Principles of Auditing

24 Hours | $895  Contract | $11,000

This course provides participants with the fundamental principles needed to conduct auditing activities related to regulatory compliance, contractual performance, and individual skills and knowledge. Participants will develop auditing skills, including planning, procedures, evaluation, and management. The course specifically addresses training audits, contractor performance audits, and compliance audits based upon consensus and ISO standards.

Jun 14 - 16, 2022  VILT  Webcast

Implementing a Safety & Health program can help avoid indirect costs that result from workplace incidents such as...

- **Lost time due to work stoppages and investigations**
- **Training and other costs associated with replacing injured workers**
- **Loss or damage to material, machinery, and property**

These indirect costs have been estimated to be at least 2.7 times the direct costs

The courses listed on this page feature no U.S. Department of Labor or OSHA affiliation, approval, or endorsement.
### SH 920
**Process Safety Management (PSM)**

<table>

</tr>
</tbody>
</table>

Process Safety Management, or PSM, is an OSHA requirement for companies that use Highly Hazardous Chemicals (HHC) in their manufacturing processes. This course describes the procedures required by OSHA and instructs the participant in how to design a full implementation of a PSM program that addresses the hazardous issues and is compliant with the OSHA requirements.

This course satisfies the training prerequisite for the Authorized Trainer Program designation in Hot Work.

The management of change (MOC) is a control procedure critical to many industries and processes. Change is essential to a company’s productivity and needs to be managed. This two-and-half-day course will present methods to identify, review, approve, and implement changes within a management of change program through a series of exercises. After completing this course, participants will have tools to develop a management of change process.

Project Management is both an art and a science. This course introduces EHS professionals to the methodology, tools, and techniques needed to deliver successful projects. Participants will learn the fundamentals of the project management framework, consisting of project initiation, planning, execution, control, and closure. Through course exercises and scenarios, participants will build skills in assessing and managing stakeholders, identifying and controlling project scope, developing a Project Plan, as well as other critical project documentation, managing risks, and building the project schedule and budget.

---

Safety is freedom from risk. If you want to increase safety, you must first consider risk.

Do you have your risks in proper focus?
**FS 711**  
Blueprint Reading for the Fire Service  
16 Hours | $395  
Contract | $5,000  
Participants learn to identify and interpret the different symbols and abbreviations related to fire, life safety, plumbing, heating and ventilation, and electrical construction drawings, schematics, and wiring diagrams. Participants will also learn fire safety and building code requirements and be able to identify hazards during the various project design phases. The training will enable participants to provide construction recommendations that will improve overall safety of the facility and the construction process.  
Jun 21 - 22, 2021 Arlington, TX  
Oct 4 - 5, 2021 Houston, TX

**FS 1000**  
Building Construction for the Fire Service  
24 Hours | $595  
Contract | $8,000  
Participants learn the components of building construction as they relate to firefighter safety and life safety, identify various classifications of building construction, and explain the theoretical concepts of how fire impacts the major types of building construction. They will gain knowledge on the elements of construction and the design of structures that are key factors when inspecting buildings, pre-planning fire operations, and operating during emergencies.  
Oct 6 - 8, 2021 Houston, TX

**LS 101**  
Life Safety Code Concept  
32 Hours | $695  
Contract | $10,000  
This course provides training and application of the concepts of NFPA 101 Life Safety Code requirements that protect people, property, and equipment. The course covers a host of topics related to reducing the spread of fire in buildings and providing a means of safe egress from buildings. Case studies and exercises will be used to convey the concepts supporting the code and its relationship to OSHA and Building Code requirements.  
Sep 28 - Oct 1, 2021 San Antonio, TX  
Nov 2 - 5, 2021 Arlington, TX

**FS 202**  
Applied Fire Safety, Protection, and Analysis  
20 Hours | $595  
Contract | $7,000  
In this interactive course, participants will develop a comprehensive working knowledge of fire protection and prevention as it pertains to life safety within the workplace. Topics include historical background on codes and standards, legal and ethical authority, fire safety, building construction, building occupancy classifications, means of egress, features of fire protection, tent fire safety code analysis, building rehabilitation, field inspections, and detailed information on the Incident Command System.  
Aug 3 - 5, 2021 San Antonio, TX  
Oct 26 - 28, 2021 Arlington, TX

---

In this program you will learn the concept, structure, and technical knowledge necessary to apply the NFPA Life Safety Code to everyday issues affecting the fire service, industry, and your community.

### ETI 501
**EPA Outreach Trainer Course**

**32 Hours | $695**

This course authorizes trainers to teach the EPA 8-Hour Environmental Hazard Awareness course and allows them to be recognized by UTA as an EPA Outreach Trainer. During the course, EPA topics will be reviewed and training techniques presented to promote environmental awareness among workers and equip them to better protect human health and environmental resources.

Note: Participants are encouraged to bring a laptop.

**Prerequisites:** ETI 101 Introduction to Environmental Compliance with completion exam and three years of environmental program experience. A college or master’s degree in environmental programs or a Registered Environmental Manager (REM) designation from the National Registry of Environmental Professions may be substituted for two years of experience.

MGE 810
Environmental Audits

24 Hours | $895
An in-depth look at environmental compliance auditing in all types of organizations in accordance with demonstrated industry techniques and standards of practice. Completion of this course will help improve compliance status, control risks, support environmental management systems, and identify opportunities for pollution prevention.

Oct 13 - 15, 2021 Arlington, TX
Jan 19 - 21, 2022 Arlington, TX

MGE 811
Environmental Law

24 Hours | $750
This course assists environmental and safety managers in identifying legal issues, deepening their understanding of how the law intersects with work duties and responsibilities, and learning how best to protect themselves and their employers from claims and enforcement actions.

Oct 27 - 29, 2021 Arlington, TX
Jan 12 - 14, 2022 Arlington, TX
May 25 - 27, 2022 Arlington, TX

MGE 817
Pollution Prevention and Lean Principles Workshop

16 Hours | $375
This course helps you save money by reducing pollution and complying with the Texas Waste Reduction Policy Act (WRPA). You will leave this course with the tools you need to create your Pollution Prevention plan.

Oct 14 - 15, 2021 Arlington, TX
Nov 11 - 12, 2021 Houston, TX
Dec 7 - 8, 2021 Austin, TX
Louisiana has a work-related fatality rate consistently greater than the national average and ranks among the top 6 states with the highest fatality rate in the United States.
Recent traumatic injury data show:

- 27% of the nonfatal work injuries resulting in days away from work were related to slips, trips, and falls
- 26% of the injuries were due to contact with objects and equipment and so severe that they resulted in time away from work
- The three leading causes of work-related injuries treated in an emergency department were contact with objects and equipment, overexertion and bodily reaction, and falls, slips and trips without a fall

POLICIES & PROCEDURES

TEXTBOOKS
All course materials will be provided by UTA unless otherwise indicated. Additional Codes of Federal Regulations (CFRs) may be purchased in English or Spanish by contacting our office. A minimum purchase amount of $200 is required.

ACCOMMODATIONS
The Division for Enterprise Development is dedicated to providing equal educational opportunities to all qualified course participants. Contact cedquestions@uta.edu or call 866-906-9190 for information regarding special accommodations.

TITLE IX POLICY
The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos. For information regarding Title IX, visit uta.edu/titleix.

CANCELLATIONS
The University of Texas at Arlington reserves the right to change or cancel any class. In the event that a class must be changed or canceled, you will be notified by email and/or phone. You are required to provide a valid email address and phone number to ensure notification. Cancellations due to insufficient enrollment will be made approximately one (1) to two (2) business days prior to the class start date.

Participant withdrawals from a course, may result in a processing fee.

If a course is canceled by UTA, participants have the option to transfer to another course, hold their funds in escrow, or receive a refund. No fees will be charged for these transactions if UTA cancels a class.
